Sorry I wasn't aware of it, are the EIS and the comment letter available on the shared drive?

Hi Becky, I was the reviewer for the EIS. Tracy wasn't on the review team, but she graciously agreed to help with some standard language because I couldn't ever get in touch with Matt or get a reviewer after Phil's departure.

Subject: Greens Creek Mine

Lynne and Tracy,

I'm working with Jennifer to provide 404 comments for the Juneau Access project in SE AK. She asked if I was involved in the Greens Creek mine since it was also in Southeast. She mentioned that you and possibly Tracy DeGering have commented on an EIS for this project.

If either of you have any information on this, let me know. Thanks.
